

Tasforests

Special edition

*A collection of papers summarising work undertaken in
the Intensive Forest Management Program from 1991 to 1996.*

Vol. 9

December 1997

Contents

	page
Plantation establishment under the Intensive Forest Management Program 1991-96 <i>B. Farmer and P. Smith</i>	1
Strategic planning and information support for the Intensive Forest Management Program <i>S.R. Davis and M.G. Stone</i>	7
Thinning and pruning eucalypt plantations for sawlog production in Tasmania <i>A.M. Gerrand, W.A. Neilsen and J.L. Medhurst</i>	15
Comparison of financial returns from sawlog regimes for <i>Eucalyptus nitens</i> plantations in Tasmania <i>S.G. Candy and A.M. Gerrand</i>	35
Growth and silviculture of <i>Acacia melanoxylon</i> plantations in Tasmania <i>W.A. Neilsen and D.R. Brown</i>	51
The use of <i>Acacia dealbata</i> as a plantation species in Tasmania: a summary of recent research <i>P.D. Kube, S.J. Brooks, D.R. Brown and M. Peterson</i>	71
Soil mapping in Tasmania's State forest <i>M.D. Laffan and W.A. Neilsen</i>	77
Development of operational techniques for thinning eucalypt regeneration <i>J. Cunningham</i>	85
Growth responses to thinning in eucalypt regrowth forests <i>G. Brown</i>	105

Stem decay in final-crop eucalypts from regrowth forests identified for intensive management <i>T.J. Wardlaw, M.H. Savva and A.M. Walsh</i>	123
Assessing the impact of leaf beetles in eucalypt plantations and exploring options for their management <i>J.A. Elek</i>	139
Feeding preferences of captive brushtail possums for eucalypt and acacia foliage <i>C. McArthur and S. Turner</i>	155
Studies of animal browsing problems in the establishment of eucalypt and blackwood plantations <i>S. Parsons, M. Statham, D. Brown and W.A. Neilsen</i>	163
Growth and yield models for <i>Eucalyptus nitens</i> plantations in Tasmania and New Zealand <i>S.G. Candy</i>	167
